Power Purchase Agreement PPA-2023-44 — Side Letter (CONFIDENTIAL)

Reference : PPA-2023-44 between Bjornholm Energi A/S ('Seller') and Vorden
Aluminium AS ('Buyer'), dated 2023-09-30, as amended 2024-02-11.
Side letter id : PPA-2023-44 / SL-03
Date : 2026-01-22
Place : Copenhagen

BACKGROUND

- (A) Under PPA-2023-44 the Buyer is contractually obliged to take or pay for not less than 540 GWh of baseload electricity per Contract Year (the 'Volume Commitment'), with quarterly true-up and an annual reconciliation in March each year.
- (B) The Buyer's Karmøy II potline reduction (announced 2025-11-04) has materially reduced the Buyer's electricity demand for the next two Contract Years.
- (C) The parties wish to record certain commercial accommodations without amending the underlying PPA, in order to preserve the regulatory characterisation of the PPA as a 'baseload supply contract' under the Buyer's home-state subsidy rules.

OPERATIVE PROVISIONS

1. Volume Commitment relief

For Contract Years 2026 and 2027 only, the parties agree that the effective Volume Commitment shall be reduced by 27% (i.e., to 394.2 GWh per year) by way of a credit note issued by the Seller quarterly, conditional on the Buyer paying the headline take-or-pay invoice in full as published in the Buyer's audited accounts.

For the avoidance of doubt: the PPA itself is not amended; the Volume Commitment in the PPA remains 540 GWh per Contract Year for all purposes of disclosure, regulatory characterisation and accounting presentation. The economic effect is achieved exclusively via the credit-note mechanism in this Side Letter.

2. Confidentiality

This Side Letter is strictly confidential between the parties. Each party undertakes that it shall not (and shall procure that its officers, directors, employees, advisers, auditors or affiliates shall not) disclose its existence, terms or effect to any third party, including without limitation:

- (i) the Buyer's external auditors and the Seller's external auditors;
- (ii) the Buyer's home-state energy regulator (Reguleringsmyndigheden for Energi);
- (iii) any rating agency, lender or financial counterparty of either party;
- (iv) the parties' respective shareholders, save for the chair of the audit committee of each party, who shall be informed orally only.

3. Survival

Clause 2 (Confidentiality) shall survive any termination or expiry of the PPA and of this Side Letter for a period of ten (10) years.

4. Governing law and dispute resolution

This Side Letter is governed by Danish law. Disputes shall be referred to LCIA arbitration, seat London, single arbitrator, English language. The parties agree that the existence of an arbitration commenced under this Side Letter shall itself be confidential under LCIA Rules art. 30.

5. Counterparts

Executed in two counterparts.

SIGNED for and on behalf of
BJORNHOLM ENERGI A/S

SIGNED for and on behalf of
VORDEN ALUMINIUM AS

Søren Bjørnholm — CEO
