Note 1 — Management fee catch-up adjustment

Following an internal accounting review (refer to Schedule IV of the LPA), the Manager has identified that, in periods 2024-Q3 through 2025-Q4, the management fee was charged against committed capital net of unfunded commitments rather than gross of unfunded commitments, in apparent inconsistency with §4.7(c) of the LPA as drafted. The catch-up adjustment reflected in this notice corrects that variance on a forward-looking basis. The cumulative under-charge is approximately EUR 4.5 M

in aggregate across all LPs; the Manager has elected to recover this in a single drawdown rather than amortise it.

The Manager wishes to flag this transparently to the LPAC. The LPAC met on 2026-02-27 (minutes filed) and the catch-up was discussed; one LPAC member (Mr. E. Klaassen, Trianon Family Office) recorded a non-binding objection to the single-drawdown recovery and requested that an amortisation alternative be tabled. The Manager has elected to proceed as set out above on advice of fund counsel (NautaDutilh). LPs who wish to discuss this item are invited to contact p.mostert@brijhaven.nl.
