CVE-2026-xxxxx draft — Aegean Research

=====

Document kind: cve

Entity: Aegean Research OE — Greece

Registration: GR-EMPORIOS-88211

Domain: aegean-research.gr

Address: Leoforos Syggrou 101, 117 45 Athens

Directors: Dimitri Papadakis

Owner reference: Minotaur (user id 13)

Contact email: minotaur@vaultpost.io

Payment wallet BTC: bc1qm1n0t4url1nuxfake1a2b3c4d5e6f7g8h9i0j

CVE draft — DO NOT DISTRIBUTE

Product : Linux kernel (io_uring subsystem)

Versions : 6.1 — 6.6

Class : Local privilege escalation

Impact : SYSTEM from any unprivileged user

Status : not reported to kernel.org

Author : Dimitri Papadakis (d.papadakis@aegean-research.gr)

Technical summary:

Double-free in sqe polling path when combined with close(2)
race against io_ring_ctx teardown. Reliable heap grooming via
msg_msg objects.

PoC (redacted): /srv/aegean/lab/lpe_io_uring.c
