Mediterra Health Networks — DPA Appendix B (Cohort Mapping · CONFIDENTIAL)

Document kind: dpa_appendix
Entity: Mediterra Health Networks — Italy
Registration: IT-MI-2099887
Domain: mediterranea-health.eu
Address: Via Tortona 37, 20144 Milano
Directors: Dr. Federico Marchetti, Dr. Chiara Esposito
Owner reference: Morpheus (user id 11)
Contact email: morpheus@ciphdrop.io
Payment wallet BTC: bc1qm0rph3u5p1ll5fake1a2b3c4d5e6f7g8h9i0j

Mediterra Health Networks — Data Processing Agreement
Appendix B : Cohort Mapping Reference (CONFIDENTIAL — Restricted: Data Protection Office)

Document control : DPA-MED-2025-v4 / Appendix B / rev 3
Controller : Mediterra Health Networks S.r.l. (IT-MI-2099887)
Joint controller : Sentinex IAM Ltd (Dublin) — for federated SSO assertions only
Processors named in this appendix:

- Krios Managed Postgres (Sentinex sub-processor, see DPA §7.4)
- Lemnos Analytics (BI vendor, processing pseudonymised feeds only, DPA §8.1)
- Argonaut Cloud Imaging (DICOM image store, separate BAA-equivalent for IT-PT)
- SwiftScribe MT (medical transcription, only HCP↔HCO mapping, no PHI)

Purpose of this Appendix

This Appendix B defines the deterministic mapping between (i) the public Healthcare Professional / Healthcare Organisation identifiers used in the operational systems and (ii) the pseudonymised cohort keys used in research and BI feeds. It is the de-anonymisation key referenced in Article 32 GDPR and is therefore subject to the heightened safeguards in clause 11.

Storage and access

- Held in encrypted form (AES-256-GCM, KMS-managed key 'med/dpo/cohortkey-2026') in `s3://mediterranea-dpo-cohortkey/` (eu-south-1 only — never replicated).
- Access limited to: DPO (C. Esposito), Deputy DPO (G. Ruggeri), Head of Research Compliance (A. Faraone). No automated read path.
- Manual access events logged to `cohortkey.audit` Elasticsearch index, retained 7y.

Mapping schema (truncated extract — full schema in 4 sealed CSVs)

HCP table (Healthcare Professionals — ~12,400 records)

Pseudonym	Real HCP	Specialty	Site
PSY-IT-00071	Dr. Lorenzo Conti	Cardiology (interv.)	Milano - San Siro
PSY-IT-00118	Dr.ssa Beatrice Pinna	Oncology (medical)	Milano - Tortona 37
PSY-ES-00342	Dra. Sara Nieto	Endocrinology	Barcelona - Gràcia
PSY-PT-00097	Dr. André Pessoa	Gastroenterology	Lisboa - Avenidas
PSY-MT-00012	Dr. Daniel Camilleri	General medicine	Mosta

[+12,390 entries — see hcp_full_mapping_2026q1.csv]

HCO table (Healthcare Organisations — ~140 records)

Pseudonym	Real HCO	Country	Tier
PSO-IT-00007	Centro Medico Mediterra Milano-Centro	IT	A
PSO-IT-00031	Poliambulatorio Mediterra Roma-Pigneto	IT	B
PSO-ES-00012	Mediterra Barcelona-Sant Antoni	ES	A
PSO-PT-00009	Mediterra Lisboa-Alvalade	PT	B
PSO-MT-00003	Mediterra Sliema Outpatient	MT	C
[+135 entries — see hco_full_mapping_2026q1.csv]			

Cohort table (Research cohorts — sensitive)

Cohort key	Description	n	DPO sign-off
COH-2024-OBES-01	Bariatric outcomes — IT/ES adults	4,217	2024-03-12
COH-2025-CARD-04	STEMI 30-day mortality, urban IT cohort	1,884	2025-02-08
COH-2025-T2D-09	T2D real-world meds switching	17,610	2025-09-30
COH-2026-RARE-02	Wilson disease real-world registry (EU)	213	2026-01-19
[+47 cohorts — see cohort_master_2026q1.csv]			

Risks and notes

This Appendix can re-identify approximately 99.4% of records in the pseudonymised research extracts. It is therefore classified as 'Critical Confidential' under the internal Data Classification Standard (DC-Std-2024-01) and must never leave the eu-south-1 region nor be transmitted outside the named processors above.

Approval

Approved by : Dr.ssa Chiara Esposito, DPO — c.esposito@mediterranea-health.eu
Co-signed by : Andrea Faraone, Head of Research Compliance
Date : 2026-02-14
