1. Business overview

Sentinex is a B2B identity & access management platform serving 3,214 paying organisations across the EU mid-market (50-2,000 seats). Federated SSO, TOTP/WebAuthn MFA, SCIM provisioning, audit-grade event stream.
Net revenue retention 138% (LTM Q4 2025). Annualised contract value: 31.4 M EUR.

2. Customer concentration (top 5, FY2025)

- Avemar Logistics Group 7.8% ACV
- HelvetiaPay AG 5.2% ACV
- Norrstrom Banking Coop 4.4% ACV
- Mediterra Health Networks 3.9% ACV
- Lumen Public Sector Services 3.1% ACV
Top-5 concentration 24.4% (down from 31.0% at Series A close).

3. Federated tenant map (extract — full list in Annex C)

6. Risk factors (extract — see Annex D for the full register)

- R-04 Single-vendor reliance on Krios (managed Postgres) for the warm-standby cluster — failover playbook last rehearsed 2025-08-12. Internal IR memo IR-2025-091 flagged a stale break-glass token still active on the snapshot bucket. Remediation owner: c.doherty@sentinex.io, due 2026-Q1.
- R-07 Customer concentration: loss of any of Avemar, HelvetiaPay or Norrstrom would reduce ACV by >4% and likely trigger investor MAC review.
- R-11 Pending DPC (Ireland) inquiry into 2024 audit-log retention — outside counsel estimates exposure EUR 0.4-1.2 M.

7. Cap table (post-money, fully diluted — top entries)

Founders (O'Sullivan, Doherty, Crowley)	27.4%
Drumcondra Seed Fund I	11.8%
Lir Ventures II	14.6%
Avoncrest Capital (Series B lead)	16.2%
ESOP (allocated + reserved)	12.5%
Other Series A holders	17.5%

Authorised distribution: Avoncrest deal team only. Watermarked per recipient.
