## Background

SILENCER operated as a vendor of stolen access tokens and as an escrow  
ruggpuller against multiple counterparties on EternalBlack Marketplace  
between Q3 2023 and Q2 2025. Forensic blockchain analysis, conducted in  
coordination with international partners, attributes approximately 41.7 BTC  
to addresses controlled by SILENCER over the period in question.

As a result of this designation, all property and interests in property of  
the designee subject to U.S. jurisdiction are blocked, and U.S. persons are  
generally prohibited from engaging in transactions with them. Additionally,  
any entities in which one or more designated persons own, directly or  
indirectly, a 50 percent or greater interest are also blocked.

Non-U.S. persons that engage in transactions with the designee may themselves  
be exposed to designation. Engaging in certain transactions involving the  
designee entails risk of secondary sanctions pursuant to E.O. 13694, as  
amended.
